UNIVERSITÉ CÔTE D'AZUR

- The CoBteK technological platform shared with all of the FRIS laboratories (Fédération de recherche pour les Interventions en Santé) is located at the Edmond and Lily Safra research center at the Claude Pompidou Institute in Nice
- In partnership with the Neuroscape laboratory at the University of California San Francisco (UCSF) this platform was updated in the fall of 2019
- The platform makes it possible to offer research and care activities using new technologies such as virtual reality, serious games, audio, video, graphic sensors, electrical stimulation.
